RE: Project: Elementary School
Pace Project No.: 1609Q88

Dear Steve Weinhofer:

Executive Summary

Pace Analytical received 127 samples(s) on 9/27/2016 for the lead analyses presented in the following report. Pace Analytical Services received your samples at our laboratory and reported your analytical results. Results reported conform to the most current, applicable TNI/NELAC standards and the laboratory's Quality Assurance Manual, where applicable, unless otherwise noted in the body of the report.

All of the lead samples tested within the acceptable NYSDOH regulated reporting limit of 15 ppb except for those samples that are marked with an asterisk. The samples flagged with an asterisk (*) exceed the regulatory limit. The space designated by the sampler on the chain of custody (COC) indicates if these samples were collected by Pace Analytical or were collected by the school district and only relinquished to Pace Analytical afterwards.

If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Wayne Bryce
